Kit Contents

Please review this document before attempting installation.

You will need basic hand tools and 2 hours of installation time.

Kit Contents	Qty
#6 x 1/2" screws	6
Retaining clips	6

Big Mouth Placement

Use the tools online to find a tutorial on bumper removal for your specific vehicle.
Look for the indicators on each body ('D' for driver's side and 'P' for passenger side) and position each Big Mouth on its respective wing. Insert the rearmost standoff into the cavity of the same shape.

Fastening

Use the supplied retaining clips and #6 x ½" screws to fasten the Big Mouths to the wing. Tighten in an alternating sequence and take care **NOT TO OVERTIGHTEN** as that can damage the threads needed to secure the part.

Finalize

Reinstall your bumper and enjoy!
